DiskStation DS124

Brand: Synology **Product Code:** DS124

Availability: 10 **Weight:** 0.70kg

Dimensions: 166.00mm x 71.00mm x

224.00mm

Price: \$12,694.00

Short DescriptionSynology 1 Bay DiskStation DS124

Description

Take command of your most important data

Secure private cloud

Anywhere, anytime secure access to all your data.

Data sharing made easy

Streamline teamwork and access to shared files.

Hassle-free backups

Effortlessly protect files using intuitive tools.

Productivity in the private cloud

DS124 is designed for professionals to share, sync, and work together more efficiently.

Anytime, anywhere access

Access, manage, and share your files and media from anywhere with Synology Drive. Available on PC, Mac, Linux, Chromebook, Android, iOS, or any device equipped with a browser.

Intelligent backup and syncing

Safeguard against ransomware attacks or accidental deletion with real-time or scheduled

folder backups. Reduce local storage use with on-demand sync, only downloadir as needed.	ng files
Seamless cloud syncing	
Synchronize files between your DS124 and public cloud services using Synology Sync. Retain local backup copies of data stored on Google Drive, Dropbox, Mic OneDrive, and more, and ensure data ownership.	
20.274	

Automatically keep data synchronized between Synology systems in different locations with Synology Drive ShareSync to improve cross-site workflows.		
Store, share, and protect		
Use your DS124 to manage all your documents, photos, and other files, or protect your physical assets with professional video surveillance.		

Photo management

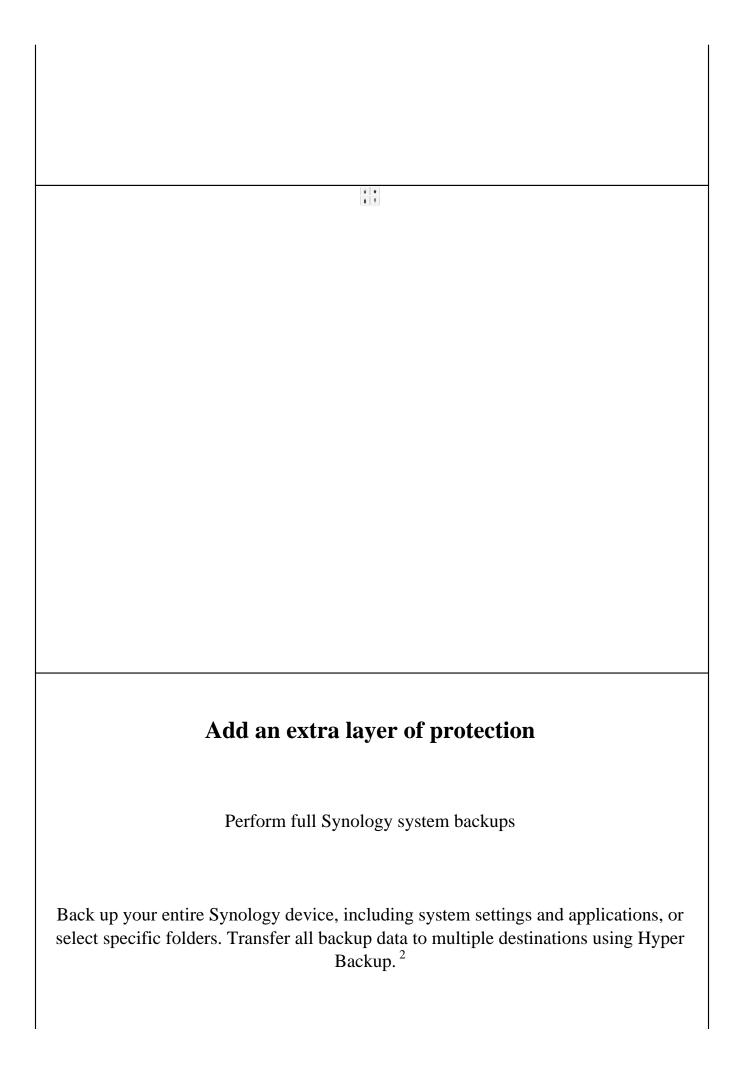

Manage your photo collection

Organize your photos and videos with smart and intuitive features. Browse automatically generated albums using facial recognition, geolocation, tags, and more.

Sharing made safer and easier

Securely share media with others while leveraging enhanced privacy features for greater peace of mind. Create a Shared Space to work together with invitees using a folder-based media library.

Wide compatibility
Choose from over 8,300 IP cameras or ONVIF devices compatible with Synology Surveillance Station to keep your premises secure. 1
Universal access
Watch live camera streams through web browsers, desktop clients, or mobile apps. Get notified of events and take immediate action.

Keep your data safe with snapshots
Take your data protection to the next level by creating automatic point-in-time snapshots of shared folders that can be copied off-site and rapidly restored using Snapshot Replication.

Volume Size

Maximum Internal 1

Volume Number

SSD TRIM

Supported RAID

Type **Notes**

• Basic

• Usable capacity for each volume will be lower than the maximum volume size and is dependent on the filesystem and the amount of system metadata stored.

• Actual maximum storage pool and volume sizes depend on drive sizes used, the number of drive bays available, and the RAID configuration.

Internal Drives File System

• Btrfs

• ext4

• Btrfs

• ext4

• ext3

External Drives

NFS Kerberos Authentication

Notes The testing standard was based on the

maximum number of concurrent connections supported by this model. During the testing,

25% of the connections were used to transfer files concurrently. The transfer process guaranteed that the connections were not interrupted; the minimum transfer

speed was not guaranteed.
